

INVESTMENT OBJECTIVE

The objective of the Sub-fund is to provide capital growth, with the potential for income, over any 7-year period.

INVESTMENT POLICY

A systematic approach is used to provide exposure to shares across any economic sector and geographic area. The systematic approach is defined as using a methodical rule-based investment process to create the asset allocation and underlying investment selections.

To provide the above exposure, a minimum of 70% of the Sub-fund will be invested in active and/or passively managed collective investment schemes (which may include schemes operated by the ACD, associates or controllers of the ACD). The Sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares and investment trusts.

The Sub-fund will be fully invested except for a cash amount to enable ready settlement of liabilities (including redemption of units) and efficient management of the Sub-fund both generally and in relation to its investment objective. This amount will vary depending upon prevailing circumstances and would not normally exceed 10% of the total value of the Sub-fund.

PERFORMANCE COMPARISON

The IA (Investment Association) Global Sector is used as the comparator. This is considered appropriate for investors to use when comparing performance as the strategy results in the Sub-Fund meeting the definition of this sector. The sector is not constructed as an Index, therefore as funds enter or leave the sector composition can change, but it is considered that the sector remains a useful and relevant comparator for investors to assess performance within a relevant peer group.

IMPORTANT INFORMATION

Margetts Fund Management Ltd is authorised and regulated by the Financial Conduct Authority.

This document is produced by Margetts Fund Management solely for use by authorised and qualified professional financial advisors.

Past Performance is no guarantee of future performance. The value of an investment and the income from it can fall as well as rise and investors may get back less than they invested.

Quoted Yields are estimated and are not guaranteed. Estimated yields are based on weighted yields of underlying investments, less estimated expenses charged to income. Future distributions may differ and will be subject to market factors.

Risk factors should be taken into account and understood including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk.
