

INVESTMENT POLICY

A systematic approach is used to provide exposure to shares across any economic sector and geographic area. The systematic approach is defined as using a methodical rule-based investment process to create the asset allocation and underlying investment selections.

To provide the above exposure, a minimum of 70% of the Sub-fund will be invested in active and/or passively managed collective investment schemes (which may include schemes operated by the ACD, associates or controllers of the ACD). The Sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares and investment trusts.

The Sub-fund will be fully invested except for a cash amount to enable ready settlement of liabilities (including redemption of units) and efficient management of the Sub-fund both generally and in relation to its investment objective. This amount will vary depending upon prevailing circumstances and would not normally exceed 10% of the total value of the Sub-fund.

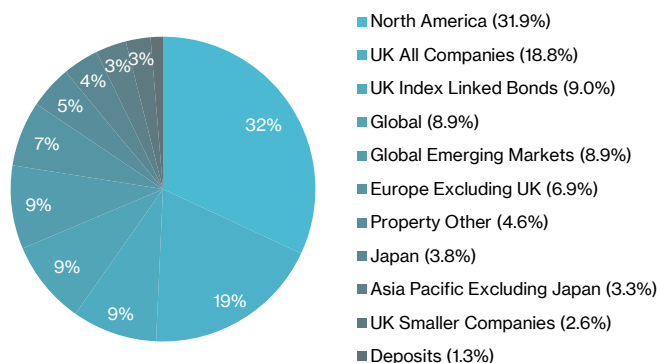

OBJECTIVE

The objective of the Sub-fund is to provide capital growth, with the potential for income, over any 7-year period.

PERFORMANCE

The IA (Investment Association) Global Sector is used as the comparator. This is considered appropriate for investors to use when comparing performance as the strategy results in the Sub-Fund meeting the definition of this sector. The sector is not constructed as an Index, therefore as funds enter or leave the sector composition can change, but it is considered that the sector remains a useful and relevant comparator for investors to assess performance within a relevant peer group.
