

Non-UCITS Retail Scheme Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MGTS Progeny Systematic ProFolio Bond Fund Acc (GB00BTRTPB80)

The Sub-fund is managed by Margetts Fund Management Limited.

Objective and Investment Policy

Investment Objective

The objective of the Sub-fund is to provide income, with the potential for capital growth over any 3-year period.

How will the objective be achieved?

A systematic approach is used to provide exposure to bonds (which may include government, corporate, sub-investment grade and inflation linked) across any economic sector and geographic area. A systematic approach is defined as using a methodical rule-based investment process to create the asset allocation and underlying investment selections. The fund may have limited exposure to other asset classes, such as shares or property, which will typically be less than 10%.

The Sub-fund will be fully invested except for a cash amount to enable ready settlement of liabilities (including redemption of units) and efficient management of the Sub-fund both generally and in relation to its investment objective. This amount will vary depending upon prevailing circumstances and would not typically exceed 10% of the total value of the Sub-fund.

Where typical exposures are stated above, they provide a general expectation of the allocation. In the short-term (a period of less than one year), the allocation may deviate above or below the stated typical allocation by 5% of the Sub-fund’s total value.

To provide the above exposure, a minimum of 70% of the Sub-fund will be invested in active and/or passively managed collective investment schemes. The Sub-fund may also invest directly (maximum of 30%) in transferable securities, such as bonds, investment trusts or structured products.

The ACD has agreed with the Depositary it will charge up to 100% of the annual management fee to the Sub-fund’s capital account. This will increase the distributable income by that amount and reduce the capital by a similar amount and may constrain capital growth.

Management Style

The Sub-fund will be actively managed. This means that the manager will use their expertise to select investments, rather than tracking a stock exchange or index.

Derivative Use

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management (managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The Sub-fund may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management, although this would not materially affect the risk exposure of the Sub-fund.

General

Shares in the Sub-fund can be bought and sold daily (every Business Day of the Sub-fund). If you invest in income shares, income from investments in the Sub-fund will be paid out to you. If you invest in accumulation shares, income will be retained in the value of your shares.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and Reward Profile

The risk and reward score is not guaranteed and may change over time. The lowest category does not mean risk free.

The Sub-fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Sub-fund rises and falls). The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile.

The following risk factors are relevant to the overall risk profile of the Sub-fund. A full description of risk warnings is provided in the prospectus, which is available on our website, or by requesting a copy.

Fixed interest securities can be affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. The value may also be affected by the issuer's credit rating and may be less liquid than other investments, which means that they could be harder to sell at the expected price.

Exposure to currencies other than the base currency is subject to currency fluctuations which could add to the rise and fall in value of investments.

Investments in collective investment schemes may provide a higher level of diversification but may also increase costs. The underlying collective investment schemes may also experience operational or credit issues which could impact liquidity (the ability to sell) or capital value.

The objective, policy and strategy set out above should align with the objectives of the investors and their minimum timeframe for investment.

Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0.00%
Exit Charge	0.00%

The entry and exit charges shown are the maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

Charges taken from the Sub-fund over a year	
Ongoing Charges	0.31%
Performance Fee	0.00%

The ongoing charges figure is based on the last year's expenses (or reasonable estimate where Sub-fund has not been operating for a full calendar year), for the year to 10 Mar 2025 and this figure may vary, year to year. It excludes portfolio transaction costs.

For further details on the calculation of the charges please refer to the Sub-fund’s prospectus.

Past Performance

This Sub-fund launched after the start of the previous year and therefore there is insufficient data to provide a useful indication of past performance. The Sub-fund was launched on 10 Mar 2025. The share class was launched on 10 Mar 2025.
